신뢰받는 글로벌 에너지 리더, 한수원

At 28th October 2019, ICR was designated as a specialized testing institute for the quality verification (CGID) of nuclear power general Standards by the Korea Hydro & Nuclear power middle Research.

FSSC Harmonization conference

- The FSSC Harmonization conference was held in Amsterdam, Netherlands from 29th to 31st October 2019. The FSSC foundation, which celebrated its 10th anniversary this year, has a global reputation in the food safety management system.
- **ICR** attended the conference as and **FSSC 22000 V.5 certification body**. And ICR is providing **the latest certification audit service based on the on the information obtained** from the conference.

ISO 22000:2018 transition

- **In June 2018, ISO 22000:2018 was revised and published.**
As a result, organizations, which were certified for ISO 22000:2015, **shall complete transition by June 2021.**

- ISO 22000:2018, like other management system standards recently published, has a High Level structure.

- transition assessment to ISO 22000:2018 on 21st October 2019, through the Korea Accreditation Board(KAB), and provides the transition and initial certification service of the latest standards to clients.

2019 ICR Ex Seminar (Explosion atmosphere)

- The “**2019 ICR Explosion-Proof Seminar**” held by the ICR Industrial Safety and Certification Team on **November 20, 2019** was a **success** with 34 employees from 14 customers.
- It was a short seminar on November 20, but the employees who attended showed that they had a good experience with the following.
 - The data was good and helpful for explosion atmosphere certification and overall conceptual understanding.
 - I hope that the next seminar will be given enough time to educate in two parts.
 - The seminar time was short compared to the prepared materials.
- The ICR Industrial Safety and Certification Team will hold a seminar every year on testing and production requirements for explosion-proof products. The 2020 ICR Explosion atmosphere Seminar promises to hold a highly-successful seminar by reinforcing the shortcomings mentioned in the seminar.

We will do our best to be the ICR industrial safety certification team that always grows with you. Thank you for attending.
